Privacy Act Statement

1. *AUTHORITY*: The authority to request this information is contained in: 5 U.S.C. § 301 (Authorizing Departmental Forms and Regulations); 10 U.S.C. § 2107 (Financial Assistance Program); and Executive Order 9397 (Use of Social Security Numbers).
2. *PRINCIPAL PURPOSE(S)*: The information you provide will be used to determine whether you qualify, and should be nominated for, an NROTC Scholarship. If you are nominated, the information will be used to enroll you into NROTC and will be used by the Navy in its management of the NROTC program.
3. *ROUTINE USE(S)*: Information you provide in this application is protected by the Privacy Act and will not be released outside the Department of Defense without your permission unless it comes within an exception to the Act or one of routine uses in 32 C.F.R § 701.112, <http://www.privacy.navy.mil/> and the routine uses set forth here. If you are nominated for an NROTC Scholarship, the information will be released to the top five schools you indicated on your application. Your information and notification of status may also be provided to your high school so they may assist with the final stages of the process.
4. *DISCLOSURE*: Providing the requested information is voluntary. However, failure to do so may result in our inability to process your application for the NROTC program.

Application Login Account

When you access the NROTC Scholarship Application System, you arrive at a login/registration screen. The first time, you will need to ‘Register’ for an account using your email address and a complex password (15 characters that must include an uppercase letter, a lowercase letter, a number, and a special character). The system will send a confirmation email to the email address you specify. You will need to click the link in the email message to verify your email account and to activate your new registration and account. Please use the same email address you may have used for other official communications with recruiters, College Board Testing, and US Naval Academy because we may already have some of your information from these other sources and we need to match these up in the database. Please plan on continuing to use this email address/user login for the duration of the application process.

After you have created and verified your account access, you will use the ‘Login’ portion of the screen to get into the system. You will also be required to input your social security number and birth date as additional security precautions. Please make sure these items are correct.

Every 60 days the system will require you to change your password. You may also change it if you feel someone else has become aware of it. If you forget your password, there is a reset feature which will send a new verification to your email address.

General Instructions

This application requires considerable thought and detail; it may require several hours to complete. Please plan on multiple sessions. Use the [checklist](#) to gather and prepare the required information beforehand and then fill it in on-line. You may login multiple times in order to complete the process and submit your final application. The application contains ten pages/screens of data entry covering a variety of background topics. Each step will allow you to save all the information that you fill-in and you may return later to complete the remaining information.

When you have completed your application, selecting the 'Finish' page will allow you to audit your application for errors. The Audit will highlight any required information that is missing. You may print the Audit if you need to do further data gathering prior to completion. If your application passes the Audit with no errors, we recommend you save a copy of your application (Adobe PDF format) for your personal reference. Additionally, you must download and print some supplemental forms ([available on the web site](#)) that will make up a part of your application. You must take them to your coordinator/recruiter and complete and sign them in his/her presence before your application will be processed.

We strongly suggest you contact your coordinator/recruiter to have them review your application before you make the final submission. Once you click on the final submit button, you will not be able to access it or make changes.

Do not submit a paper copy of this application once you have electronically submitted it.

Application Deadline

The Application submission cycle starts in the spring approximately 18 months from the beginning of the school year for which we are soliciting applications. Deadline for submitting your application is the end of January for the school year for which we are soliciting applications. Early application improves, but does not guarantee the chance of placement at your first choice school. If you apply early and are not selected at the early Selection Boards, your application may be reconsidered at a later Board.

SAT/ACT Scores

Test scores must be sent to school code **0656**. You may submit your application electronically at any point, but we must receive qualifying test scores before the application will be considered complete.

Navy and Nurse Application
SAT minimum Math 520 Critical Reading 530
ACT minimum Math 21 English 22

Marine Application

SAT minimum combined score of 1000 on the Math and Critical Reading portions of the test
ACT minimum composite score of 22.
Armed Forces Qualification Test (AFQT) minimum score of 74

Navy and Nurse applications will use the highest scores from two separate tests. Marine Corps applications will use a single set of test scores. Test dates must be between December 2011 and December 2013 – earlier or later tests will not be considered.

After you have submitted your application and you would like to make changes, please contact the Application office: <http://www.netc.navy.mil/nstc/cx/contactXC.asp?ag2>. - _____ **Other Accomplishments.** Indicate any other accomplishments you may have achieved. Use the 'Remarks' section to list any accomplishments, responsibilities, leadership, or other noteworthy activities.

NROTC Interests

- _____ **LREC Interest.** The NROTC Program desires applicants interested in pursuing baccalaureate degrees in [engineering, math and science fields](#). Students interested in pursuing language or cultural studies majors should examine the opportunities available in the Navy's Language, Regional Expertise, and Cultural Awareness (LREC) Program, offered at select NROTC units. Annually, the Navy will offer this program to a select number of students. Attainment of a specific level of language proficiency is not required by the NROTC LREC program. Please indicate your interest in the LREC program by checking the appropriate box.
- _____ **Five college choices.** The Naval ROTC Scholarship is awarded to a specific Naval ROTC Unit. The Unit resides at a host school and there may be affiliated or cross-town schools within the local commuting area. You must select five (5) choices for the college or university you want

to attend on the NROTC scholarship and you must indicate whether or not you qualify for in-state tuition for each of your choices. Additionally, one of your first three choices must be a public state college/university where you are able to qualify for and obtain "in-state" tuition. If you cannot obtain "in-state" tuition at any public school with an NROTC unit, you will be required to explain why. Each of your five (5) choices must be for a college/university at a different Naval ROTC Unit. There are only 70 units, but over 150 different colleges and universities. Many of the units have cross-town colleges or universities in addition to the host school (for a listing of Naval ROTC Units and associated schools, see https://www.nrotc.navy.mil/colleges_nrotc_unitsXP3.aspx). You may not select a unit more than once; this includes the cross-towns. For example, if you select Drexel, you may not select the University of Pennsylvania as another of your choices. College choices are used for initial placement at particular NROTC unit only. If you are awarded a scholarship, you may use it at any of the affiliated schools with that NROTC unit. You must still apply to and be accepted for admission at one of the colleges/universities for each NROTC Unit that you indicate on this application. Award of a scholarship to a unit does not guarantee you admission to that college. We strongly suggest that you apply to all five of your listed choices as well as any affiliated schools which you might also like to attend. We will do our best to place you at one of your top 3 choices, but we cannot guarantee such placement. There is also a possibility that we will be unable to place you at any of your listed choices and may contact you at a future date for additional choices. Please let us know how strongly you feel about your choices and the order in which you have placed them.

_____ **Acknowledgement** Make sure you check the acknowledgement box underneath your college choices indicating you understand that you must apply to these college/university choices.

_____ **College major for your first choice school** What is your planned college major. Please select from the list available and choose a major (with its associated tier) that you think you'd like to study. The Navy will award more scholarships to those candidates whose academic interests align with Navy needs.

Essays

_____ **Essays** You are required to compose your own statements. You should think carefully about what you wish to say and attempt to answer the question or discuss an issue as concisely and completely as possible. You will be required to sign a statement that certifies that the statements are original work and that you composed them yourself. These are short essay questions that should consist of one to two paragraphs with 250-500 words.

Finish

_____ **Application Audit** When you select 'Audit', the application will check several key areas. In some cases, an item will be flagged for completion or correction. These key areas must be completed correctly before you can submit your application. In other cases, you will be informed that information appears to be missing or incorrect and given the option to submit the application as it is. This indicates that the field is not mandatory, but you are reminded that the more complete and accurate your application, the better the board will be able to evaluate your application.

_____ **Personal Review** After you have reviewed and corrected any problem areas, you should review the entire application for accuracy and completeness. **Providing false information could result in your application not being considered or in revocation of a scholarship offer.**

_____ **Save a Copy of Your Application** At any time while working on this application, but most

especially at the time you submit it, you may create a printable PDF ([Adobe Reader](#)) version of your application. You may download this PDF file to your computer and print it if you want a paper copy. You may want to provide a copy of your application to person who will be doing your Officer Interview. It will be a reference for you of the information you submitted.

We strongly suggest you work with your coordinator/recruiter and have them thoroughly review your application before you proceed to the next step.

_____ **Submit** When you and your recruiter/coordinator are satisfied that the application is as thorough and complete as you can make it, then click the ‘Submit’ button.

_____ **Supplemental Forms** There are Supplemental Forms stored on the public NROTC website. After your application is submitted on-line, you will need to take supplemental forms to your Coordinator/Recruiter’s office and work through those forms with him/her.
Navy option applicants should retrieve this set of forms:
[Navy_option_NROTC_Supplemental_Application_Forms](#)
Nurse option applicants should retrieve this set of forms:
[Nurse_option_NROTC_Supplemental_Application_Forms](#)
Marine Corps option applicants should retrieve this set of forms:
[Marine_Corps_NROTC_Supplemental_Application_Forms](#)

After submitting the application, you will no longer be able to login and make changes to it. If you do login, you will be taken to a screen where you may see the status of your application.
