

# College Bound Immunizations

**Students entering college may be required to have the following vaccinations:**

- Measles, Mumps, Rubella (MMR)
- Varicella (Chicken Pox)
- Tetanus, diphtheria, pertussis (Tdap)
- Hepatitis B
- Meningococcal conjugate (MCV4)

Each student should check their institution's requirements.

A certificate of immunization will need to be completed and signed by your health care provider and returned to the college or university. Please be sure to bring your current immunization record when you come in for vaccinations. Your doctor or healthcare provider can answer questions you may have about vaccines.

We also offer TB skin test (PPD) or QFT (blood test for TB).

Payment for clinical services may be made by cash, debit/credit card or a check from a Georgia bank. Clients with Medicaid and PeachCare for Kids are welcome. Also, Aetna and State Health Benefits Plan (Blue Cross/Blue Shield of Georgia) coverage are accepted. Other insurance may be accepted, if verified.

Birth certificates for students born in Georgia are available from Vital Records in the Eleanor Richardson Health Center. Payment for birth certificates may be made by cash or debit/credit card only.
